October 21, 2015

Dear Jan,

This past summer, a young child stepped on a discarded needle while playing in Richard B. Harrison Park in SoHo. Upon hearing about this we contacted Councillor Tanya Park to ask if it would be possible to have needle bins installed and she immediately arranged a meeting for us with yourself and Brandon Agnew, Case Coordinator from London CArES.

While meeting in the park we all agreed that at least 2 bins would be needed for such a large park and the next step was to have a formal request made. At our September meeting of the SoHo Community Association this matter was brought forward and the members agreed that they support installing needle bins in Harrison Park. It was also suggested and agreed that the Association is in support of the installation of a needle bin at Meredith Park on Nelson St. as well.

The SoHo Community Association supports safe needle bins installed in our parks.

Sincerely,

A handwritten signature in black ink that reads "Cheri McLeod". The signature is written in a cursive, flowing style.

Cheri McLeod, President
The SoHo Community Association
